School Finances In Splendid Condition

Chairman Johnson Submits Glowing Report of Coleman Schools for 1927

The trustees of the school board met last Friday evening at 7 p.m. for the annual meeting, and the financial report for the year was submitted, showing the best record yet attained by the board as regards income.

Chairman Thos. Johnson's report reviewing the main activities of the school year makes a very creditable showing, and is in part as follows:

The actual cost of operating the school for the year was \$31,297.68. There were 659 pupils in attendance, the cost per unit being \$47.56.

Bank balance at December 31 was \$18,811.98, which amount is \$2,554.74 in excess of 1926.

During the year another assistant has been added to the high school staff, which the board found necessary.

The board have completed terms of purchase for the bank premises and site on favorable terms.

The mill rate for 1927 was 22 mills which figure is lower than for the past few years.

On Monday next nominations will take place for the vacancies caused by the expirations of the terms of the chairman, Mr. Johnson, and John Rogers. The latter has stated it is not his intention to again stand for office, owing to not being able to devote the time necessary for work. The record of Mr. Johnson as chairman shows that for some years he has taken a very keen interest in the administration of school affairs, and the schools are being operated efficiently, so that should he again decide to accept nomination, he will doubtless meet with a large share of public support.

In this issue is published a statement of receipts and expenditures for the year.

Women's Institute Advocate Baby Clinic

First Meeting of Year Held at Mrs. Ouimette's Discusses Topics of Interest

The regular meeting of the Women's Institute was held at the home of Mrs. C.S. Ouimette on January 24. Two new members were enrolled.

It was decided to apply for the Baby Clinic again this year. The date to be announced later. This clinic proved very popular last year.

Arrangements are being made to hold an Institute Bridge. The various committees in charge of this will do their best to make it a success. Invitations will be issued, and any one wishing an invitation may procure one by applying to the secretary, Mrs. L. Lindoe. The date and place will be announced when arrangements are complete.

Committees were appointed for the year. The roll call "A Happy Thought" was well responded to, and the demonstration on making wool flowers by Mrs. C.S. Ouimette and Mrs. A. F. Short was enjoyed by all present.

A vote of thanks was extended to Mrs. Ouimette, Mrs. W.L. Rippon, Mrs. A.E. Graham and Mrs. A.F. Short for the sum of \$21.60, the proceeds of a bridge held in December.

The next meeting will be held at the home of Mrs. W.L. Rippon.

Elks Elect Officers for 1928

At the meeting on Friday, Jan. 20 of the local lodge of Elks, great interest was taken in the annual election of officers, which resulted as follows: Exalted ruler, Bro. George A. Brown; leading knight, Bro. J. M. Roshon; loyal knight, Bro. R. F. Barnes; lecturing knight, Bro. T. Johnson; secretary, Bro. W.L. Rippon; treasurer, Bro. C.S. Ouimette; inner guard, Bro. C.J. Devine; tyler, Bro. H. Antel; trustee, three years, Bro. G.W. MacKinnon; equire, Bro. Harry W. Clark.

Complaints of Annoyance

A lady in West Coleman, Mrs. Rioux, complains of the annoyance she has been subjected to by children of the neighborhood, and states that this has continued for a considerable length of time. Having obtained legal advice in the matter, she states that her only recourse is to take action by laying a charge against the juvenile offenders, so that the parents may have their sense of responsibility impressed upon them.

Sat. Feb. 4, the Fox picture entitled "East Side, West Side," with George O'Brien cast in the lead, will play at the Palace theatre.

Jimmy Evans is Star Hockey Player

In Game Against Regina Caps Makes Only Score of Game and is Cheered

Jimmy Evans, Coleman hockey player who has distinguished himself several times already this season with the Moose Jaw Maroons, scored the only two goals of the game against the Regina Capitals last Thursday night, whitewashing the Regina team for the third time in succession. The Moose Jaw Evening Times states that Evans, at centre, was the big noise in the scoring, and as a result of the tangle, emerged with two additional notches in the handle of his war club.

Evans made it two for Moose Jaw when he placed himself in front of the unguarded Regina net and shoved in a perfect pass from Conn, who was in the corner with three men checking him. Both Conn and Evans were cheered for their work.

Jimmy's exploits on the hockey team of the mill city will create keen interest locally, as he played hockey here during his school days, being a son of Mr. and Mrs. Wm. Evans, Main street.

Successful Lecture

There was a full house at the United church for Prof. Corbet's lecture on Thursday evening of last week. Every chair was in use as well as the ordinary seating. The lecture was a very instructive and satisfying account of the history and life of Quebec and its people.

Very high tribute was paid to the basic qualities in the life of these people. Their devotion to religion and home and traditions were illustrated by nearly sixty slides shown during the evening.

Important places such as St. Anne de Beaupre and Abraham's Haights were dealt with at length. The scenic beauties of Quebec were also enlarged upon.

A most interesting group of pictures shown were those reproduced from paintings by Corbin, one of the leading artists seeking to portray the life of the habitant. These were an outstanding feature of the evening. At appropriate intervals the professor gave readings from Drummmond in excellent style giving pleasure to the audience.

The management of St. Paul's will no doubt feel that to bring that type of entertainment to the town is worth while. Professor Corbet was delighted with Coleman which gave him his best audience outside the larger centres.

Haig Memorial Day Feb. 12

OTTAWA, Feb. 1.—Branches of the Canadian Legion of the British Empire Service League have been requested to observe Sunday, February 12, as a day for holding memorial services for Earl Haig.

The Dominion headquarters has asked branches throughout the Dominion to arrange for memorial services to which the public would be invited.

Nominations To Be Held Monday Next

Vacancies of Mayoralty and Three Councillors and Two Trustees to Be Filled

From 11 to 12 o'clock noon on Monday next is the hour in which nominations may be received at the council chamber for the offices of mayor and councillors and school trustees. The terms of Mayor Burns, Councillors J. Moores, S. Moores and G. Pattinson, and Chairman Thos. Johnson and J. Rogers of the school board expire, and these vacancies are to be filled.

Up to the present there has been very little comment as to who will be nominated, but possibly by Monday more interest will have been awakened in the municipal elections, which take place a week following nominations.

Few Ratepayers at Annual Meeting

Mayor and Councillors Review the Year's Work and Tell How Money Was Expended

The annual meeting of ratepayers held last Friday evening was attended with the usual measure of enthusiasm, there being a total of seventeen present, of whom more than half were councillors, town officials and school trustees.

Thos. Johnson was nominated as chairman of the meeting, and Mayor Burns gave a resume of the council's work throughout the year, speaking at some length on the work of the special committee of himself and Councillor J. Moores in the appeal of Coleman Light & Water Co., Ltd.

Cr. Sam Moores as chairman of the Finance committee said that expenses had been somewhat higher than usual owing to the cost of the appeal and relief to Nick Binda and N. Orlando.

Cr. J. Moores, chairman of Property and Works committee, itemized the expenses of his department, showing a very economical handling of the work in his charge, the total cost of street maintenance being \$673, the heaviest charge for this being on Sixth street where water from a spring had always caused considerable trouble, and for which the only remedy would be to dig a hole to drain the water into and allow it to seep away. The cemetery had been surveyed at a cost of \$30, so that a proper record of plots would always be available.

Cr. Fraser, for the Relief committee, outside of the cases already mentioned, stated that he had disbursed \$144 to deserving cases.

Walter Nelson, chairman of the Police committee, stated that the populace must be becoming more law abiding as time passes, as fines were considerably less than last year, \$ being received from this source.

Cr. Roshon reported for the lighting committee, and in connection with efforts made last summer to install street lights in the business area, had secured support from 30 merchants to the extent of \$1.00 per month. The Light company however stated that the installation of the power line would cost more than the revenue would pay for, and would not agree to its erection, consequently the proposal was allowed to die a natural death.

Cr. Pattinson spoke on the economy of administration during the year, and commented on the successful work undertaken by Mayor Burns and Councillor J. Moores, who had given much of their time to the town's business. He felt that the meeting should place on record its appreciation of their work in behalf of the ratepayers.

Robert Young, on behalf of the ratepayers, expressed approval of the work of the council throughout the year, and a motion proposed by Mr. Snowdon, seconded by Mr. Young, was passed in appreciation of the council's work.

In acknowledging the confidence of the ratepayers, Mayor Burns stated they were not looking for any pats on the back, though it was more pleasant to receive praise than abuse, but he felt that it was a duty to serve the ratepayers if elected to office. It often meant a sacrifice of time at some inconvenience, and he could truthfully state that though he had no business establishment in the town, yet he had faithfully strived to serve all classes impartially and to give everybody a

Peace and Agriculture

Every country in the world is still staggering under the enormous burden of the war debts which each and everyone is carrying. Even countries that were not actually engaged in the Great War were none the less put to heavy expense and sustained heavy losses as a result of that titanic struggle. The people of Canada know what it is costing them. They have been called upon to pay income tax, excess profits and business profits taxes, air tax, stamp taxes on cheques, receipts, matches, increased postage rates, etc., etc. Aside altogether from loss of life, and in maimed and suffering humanity, the huge monetary loss of war is every day being brought home to the peoples of the world.

Only recently announcement was made that fourteen billions of every twenty paid to the British income tax collector goes to pay for past wars and preparations for future wars. And now the Secretary of the United States Treasury explains in his annual report how approximately eighty-two cents of every dollar paid into the Treasury is expended for past, present, or future military purposes, leaving slightly less than eighteen cents for financing the ordinary civil functions of government.

In other words, as one paper puts it, while eighty-two cents of every dollar collected from the tax payer is devoted to war purposes, only eighteen cents is spent by the Government for the purposes of peace, agricultural research, erection of public buildings, scientific investigation, the maintenance of diplomats abroad, the making and enforcing of laws, and all the multitudinous forms of ordinary civil functions added together.

These figures would seem almost incredible even for a country in war-ravaged Europe, but stated officially by a member of the United States Government as applying to that country enjoying such a large measure of isolation from the entanglements forced on many European nations, and itself practically immune from attack, the facts and the thoughts to which they give rise are appalling.

Faced with such a situation it is small wonder that the masses of the people of the world are crying desperately for international agreements and tribunals outlawing all war, and that the more far-seeing statesmen in all countries are anxiously striving to find some formula, some basis, of common agreement.

But human nature continues to be very much what it always has been, and so, while the world is crying for peace, the United States military authorities itself as the greatest apostle of peace, its people are nevertheless being incited through a flag-waving campaign, and in the name of one hundred per cent Americanism, to sanction the inauguration of a "world's greatest war" policy and the expenditure of billions of dollars upon battleships, and more battleships, which will be obsolete and placed upon the scrap heap before the tables of today reach middle age, unless indeed, the very existence of such a navy does not invite a struggle in which some of the ships will be destroyed in battle amid the flare and roar of their own guns.

And while this mad chase continues, and debt is piled upon debt for the people to bear, civilization is demanding better schools, better roads, better housing, more of the joy and happiness of life. The cost of one modern battleship devoted to agricultural research would work a reformation in food production, and every dollar so expended would add hundreds to the wealth of the world, as compared with every dollar expended in war preparations being for the avowed purpose of destroying both life and wealth.

Among all classes of people, agriculturists should be the foremost in their insistence upon peace and in setting their faces with determination against war and preparations for war.

Business Men Meet Farmers

Plan in Manitoba To Establish Close Relationships

Representatives of the United Farmers of Manitoba and members of the Greater Winnipeg Board of Trade conferred recently in an effort to establish closer relations between business men and farmers of Manitoba in solving special problems of agriculture.

Under a plan discussed, representatives of business and of agriculture might get together as occasion might require to deal with special problems affecting the farming districts.

The conference was suggested by Premier J. H. Bracken, of Manitoba, made at the 1927 annual meeting of the Canadian Chambers of Commerce, that a closer relationship be established between commercial and agricultural interests of the Dominion.

A REMEDY THAT INSPIRES FAITH

People Who Have Used Dr. Williams' Pink Pills Have Written Them With Praise

"Going into a decline" is an expression that has come to be known as one of the most difficult conditions with which physicians have to deal. It often describes an alarming condition because it does not yield to ordinary treatment and the debility continues with loss of flesh and strength until the patient feels hopeless. In the majority of such cases the victim suffers from lack of food, red blood, and if the blood can be stored to normal no other medical treatment is necessary. Proper food and sunshine will do the rest.

Every man, woman and child who has used Dr. Williams' Pink Pills will tell you that it is a remedy that has done for me. I once took Dr. Williams' Pink Pills to build up their blood supply. The mission of this medicine is to make new, rich red blood, which speeds recovery health and strength. "I am writing to tell you what Dr. Williams' Pink Pills have done for me," says Mrs. J. H. Oulton, Firdale, Man. "A few years ago I was in a badly run-down condition, so much so that I was subject to fainting spells which would leave me in such a condition that I could hardly go about. Then I was stricken with influenza and my strength weakened me, and throughout the winter I remained in this condition. I was taking medicine, but it did not seem to help me. My mother advised me to try Dr. Williams' Pink Pills. I took a couple of boxes to start on. When these were done I seemed to feel an improvement in my condition. I took a few more boxes, and by that time I was in the best of health and had gained in weight. My faith in Dr. Williams' Pink Pills is now unbounded, and I know that I can take them occasionally as I am not feeling quite well. I can commend them to others, and cannot praise them enough for restoring my health."

You can get these pills from any medicine dealer or by mail at Jole a box from The Dr. Williams' Medicine Co., Brockville, Ont.

British At Heart

Speaking before the Canadian club of New York at a luncheon, Augustus Fiddle, author, critic and editorial writer of the *Toronto Star*, said that Canada's "great heart is absolutely British," notwithstanding the penetration by American idiom, slang, phrases, movies, plays, orchestras, sentimental and popular songs, cake walks and moon songs, dancing, country, service clubs, American novels and magazines and clothes—and even cocktails.

Complete in itself, Mother Graves' Worm Extirminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

Nights are likely to be cold in a desert because the dry air of the desert lets ground heat escape much faster than does moist air, according to "Liberty."

The first broadcasting station of them all was ODR, standing for Old Dame Rumer.

The Least Excitement Made Her Heart Palpitate and Flutter

Mrs. Ambrose Omer, Elginburg, Ont., writes:—"I suffered for some time with a bad heart which seemed to be controlled by my nerves. The least little excitement would cause it to flutter and palpitate, and at times I would have real bad spells. I suffered in this way for some time when, one day, I saw

advertisements, so I decided to try them. I had only taken a few boxes when I noticed that I felt better as I continued taking them and in a short time my heart was entirely different."

Price 50c, a box at all drug stores and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Milburn's Liniment for sick animals.

Children's Colds

Best Treated Externally

That's why modern mothers prefer Vicks—It cannot upset delicate stomachs. Rubbed on throat and chest, it acts two ways:

(1) Its healing vapors, released by the body heat, are inhaled direct to the air passages; (2) It "draws out" the mucus like an old-fashioned poultice.

VICKS VAPORUB
OVER 15 MILLION JARS USED YEARLY

LINKED BY TELEPHONE

Extensions Recently Made Connect Western Europe With America

The most far-reaching developments in the history of wireless telephony were put into operation when the service to England from Canada and the United States was extended to Brussels and Antwerp as a preliminary to further extensions linking the whole of western Europe with the whole of North America.

Simultaneously it was announced that successful tests in telephony between London and New York have brought this latest scientific marvel appreciably nearer the stage where it can be operated commercially making it possible for London to see events happening in New York or vice versa.

The expansion in trans-Atlantic telephony, however, is more important at the present time because of the true possibilities it fosters. It is pointed out that it is now possible to conclude deals verbally between merchants, say in Hamburg, Vienna or Barcelona on one side, and merchants in Vancouver, San Francisco, or Havana on the other.

This remarkable achievement has led to the appointment of an international advisory board to standardize equipment, co-ordinate development and overcome the difficulties in international wireless telephony communication.

It is predicted that in future this intercourse between countries will supplant the present telegraphic methods now in use throughout Europe. London will thus become the European center of telephony—a sort of clearing house for communication with North America.

Market Coming Back

Britain Will Again Buy Canadian Bacon Is Report

The market in Britain for Canadian bacon is coming back and should be fairly well established by next March. This was the information given by Liverpool produce importers to the party of Canadian farmers visiting Britain, at a conference here.

H. S. Arkell, Dominion Livestock Commissioner, asked the importers what the prospects were of a let-up in the bacon supply from the Baltic and whether Britain would pay higher for Canadian bacon than for the Baltic product.

The answer was that next March the Baltic imports would decrease and Germany would be the big purchaser of pork from the Baltic. Britain, it was asserted, could easily afford a better price for bacon to see that the importers conceded, did a better job than any others. Canadians were advised to remain in the bacon market until the British market came back, which would be very shortly. The importers also said that Canadian cheese was superior to New Zealand's product and that Canadian butter and eggs were popular with the British buyer, but the lack of a continual supply of a high quality was a hindrance to the trade.

Raising Polo Ponies

The raising of polo ponies is being taken up as a sideline on the Edmonson ranch in the Okanagan Valley. Ratiified that the climate and range conditions of the area are suited to the breeding and raising of the type of horse required, stallions have been imported from the Old Country. The increasing market in the United States is the one in view.

The United States produces about one-half of the entire world supply of iron and steel.

Planting a corn is both risky and inadvisable if it is made better to grow the lowly corn remover and eradicate them entirely.

Courtesy is a personal investment that pays big dividends.

Aviator's Adventure in North

Squadron Leader T. A. Lawrence Makes Report To Ottawa

Forced down by darkness at a lonely hovering post, with the temperature hovering around 30 degrees below zero, isolated by snow storms and powerless to take wing again for more than a week, Squadron-Leader T. A. Lawrence, Ottawa, in charge of the R.C.A.F. detachment assigned to survey the Hudson Straits, was the principal in a thrilling adventure in the frozen North.

Rumors reached the capital that the leader of the Government's survey and patrol birds had been lost. Later officials of the Department of Marine and Fisheries, who are in touch with the Hudson Straits party by radio, reported Major Lawrence safe.

The Squadron-Leader's report reached headquarters by radio from his winter headquarters at Wakeham Bay, Ungava.

After being forced down January 10, the aviator reported, he was weatherbound until January 16, when a companion flier, Carr Harris, sent to search for him, arrived. High winds which accompanied the extreme cold heating of the plane's motor impossible, and subsequently Squadron-Leader Lawrence was stranded lack of the Hudson Bay sub-post at Little Sugluk.

With the coming of milder weather January 17, the aviator dug his machine out of the snow and took off, finally reaching Wakeham Bay despite poor visibility.

Has New Method

Different System Of Rejuvenation Evolved By Austrian Surgeon

Dr. Karl Doppler, of Vienna, assistant to Dr. Hans Lorenz, Dr. bloodless surgeon, has announced a new method of rejuvenating the human species which he has been invited to demonstrate before the American Medical Association at its convention. Dr. Doppler says he had evolved a different system from that of Voronoff. It has to do with supplying more blood to the gland cells, thus bringing new life and rejuvenating the entire constitution. He adds that his method is applicable equally to both sexes and declares that in 200 cases he had not had a single failure.

Valuable Clay Property

A group of clay experts have acquired a valuable clay property three and a half miles from Reddick, Sask., station and have had a spirit trip built out to the property from the main line of the Canadian Pacific Railway.

The biggest bed of salt rock in the world is in Wieliczka, Poland.

Keep a Box Always Handy!

Zam-Buk provides an ever-ready and reliable first-aid for injuries. It is also unequalled as a soothing, speedy remedy for obstinate and deep-seated skin disease, poisoned wounds, ulcers, piles, etc.

Within every box of Zam-Buk are stored the most valuable healing, soothing and antiseptic properties known to Science. Its unique herbal composition and its absolute freedom from animal fats and mineral drugs make Zam-Buk the safest and best dressing for skin troubles of all kinds.

Get a 50c box of this great healing ointment from Druggists or direct today, or ask Zam-Buk Co., Toronto, Ontario. PRICE 75c PER BOX.

A Wealthy District

Wealth Produced in The Lethbridge Division Of The C.P.R. Estimated Over Eighty Million In 1927

The Lethbridge division of the Canadian Pacific Railway made a notable record in 1927, wealth produced aggregating \$80,000,000, according to estimate. Agricultural production was worth \$67,100,000; made up of: wheat, \$14,000,000; other grains, \$4,000,000; sheep and stock, \$18,000,000; cattle and hogs, \$5,750,000; poultry and products, \$2,250,000; dairy products, \$4,000,000; potatoes and vegetables, \$1,250,000; hay and feed, \$2,000,000; and honey, \$50,000. In addition, the production of coal and gas was worth \$11,500,000, sugar \$500,000 and other manufactures \$1,500,000.

Mothers Value This Oil. — Mothers who know how suddenly cruel may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

Revising Trade Agreement

Greek Government May Ask For Treaty With Canada

D. Caelmanns, the Greek minister at London, called on Hon. P. C. LaRue, Canadian high commissioner in London, recently and conferred with Mr. LaRue nearly an hour with regard to a trade treaty between Greece and Canada.

The Greek Government has recently been revising its trade agreements, and there has been some discussion of a possible trade re-arrangement as between Great Britain and Greece. From these discussions it is possible that a convention between Canada and Greece will arise.

At the present time Canada has no trade treaty with Greece.

The history of the banjo shows that the first specimens had but one string. What is needed is a saxophone with only one hole.

COULD NOT REST OR SLEEP

Rash on Arms, Neck and Face. Cuticura Heals.

"I was troubled with an itching rash which broke out in blotches on my arms, neck and face. It itched and burned causing me to scratch and scratch, causing eruptions. My face was disfigured and I had to bandage my arms. I could not rest or sleep on account of the irritation. A friend advised me to use Cuticura Soap and Ointment so I sent for a free sample. I got relief at once so purchased more, and after using a cake of Soap and part of a box of Ointment I was healed. (Signed) Miss Wava C. Carter, Junction Rd., Springfield, N. B., Aug. 30, 1926."

The Cuticura Soap, Ointment and Talcum for daily toilet purposes.

Commercial Aviation

Attracts Very Little Attention But Is Steadily Increasing

While our attention has been centered on the more spectacular events of aviation, with its thrilling hazards, casualties and triumphs, we have overlooked the less eventful but more important aspect of commercial aviation. This phase of air travel has been steadily progressing. The year has given us day and night transportation, mail service and the air express. The regularity, smoothness and freedom from accident attending these services constitute a record in many respects more remarkable than the most sensational transatlantic and transoceanic flights. But they are taken, largely, for granted, because they lack the dramatic appeal of stunt flying. Statistics now available show that 400,000 passengers were carried between January 1 and July 1, 1927, at an average rate of 13 cents per mile. In about five years, it is estimated, this rate will be reduced 50 per cent. Air mail contractors, during the same period, carried 32,212 pounds of mail over a distance of 1,399,720 miles with a mere 100 mishaps so small as to be negligible. Dry figures, perhaps. All figures are dry. But they indicate that the time is near at hand when air travel will be the safest form of transportation, and everything considered, one of the most economical.

Wealth Of Kootenay District

Kootenay's production of wealth during 1927 is estimated by the Nelson "Daily News" at \$56,598,862. In this total, metal produced by the Consolidated Mining and Smelting Co. of Canada were valued at \$57,047,202; coal and its products are placed at \$6,463,702; forest products at \$5,718,775; and agricultural products at \$3,680,180.

It pays to be upright. The crooked "S" means little, but the addition of two upright lines thus: "S" makes it very eloquent.

Milburn's Liniment for sick animals.

FRIENDLY SPIRIT AT THE OPENING OF PARLIAMENT

Ottawa.—A felicitous atmosphere pervaded the House of Commons when Parliament opened. Right Hon. W. L. Mackenzie King, the Prime Minister, embracing the occasion to welcome Hon. R. B. Bennett, the new leader of the Opposition, and in doing so paying warm tribute to Mr. Bennett's qualifications for the post.

"The member from West Calgary, through his scholarship, great natural endowments, ability in business and politics is qualified for the position he now holds, and he will at all times have my best wishes," said the Prime Minister. Mr. Mackenzie King felt sure Mr. Bennett would co-operate in upholding those ancient traditions of Parliament which meant so much to his predecessors.

In the same strain, Robert Gardiner (Progressive, Acadia), speaking for the Progressive Party, welcomed Mr. Bennett and voiced the appreciation of Western Canada at the choice of the Conservative Party in its leader. He drew attention to the fact that Mr. Bennett represented an Alberta constituency, and declared this fact would "probably create a very strong sentiment between Eastern and Western Canada."

Mr. Gardiner entered a plea for co-operation in the House. "We are of the opinion that co-operation in Parliamentary work is just as essential for the welfare of the Canadian people as is co-operation in other lines of endeavor," he said.

Mr. Gardiner also paid tribute to Hon. Hugh Guthrie, who had led the Opposition in the Commons last session.

"While I have not been a member of this House for very long, in the few years I have been a member I noticed a great difference in the temper of the House last session, primarily due to the very able leadership of the honorable member for South Wellington."

Mr. Gardiner hoped the "friendly attitude which the temporary leader assumed last year" would be adopted by the present permanent Opposition leader.

Hon. Mr. Bennett thanked the Prime Minister and Mr. Gardiner for their congratulations. The kindly spirit to which expression had been given was characteristic of the spirit he had found in every part of Canada since last October. No man had been more kindly received by his political opponents.

"Fearless and courageous criticism must always be tempered with constructive suggestion," he said, "and I desire that, whatever may happen, the Opposition itself may serve some useful purpose in the direction of the affairs of the country, and to that end I will devote my best efforts." Mr. Bennett then would endeavor to discharge the duties of the difficult task which he had undertaken with a desire to be of some service to Canada, and to make it easier to conduct public business than it was today, merely partisan view for the purpose of interposing objections and opposition for its own sake."

Hon. Hugh Guthrie thanked the Prime Minister and Mr. Gardiner.

Behind Air Service

Organized Airways in Other Countries But None in Canada
Ottawa.—Canada is 10 years behind in the use of aviation. Major-General J. H. MacBrien, newly elected president of the Aviation League of Canada, told an Ottawa service club. He believed aviation essential to any nation both commercially and as an arm of defence.

As proof that the Dominion was behind the times, he pointed out that Germany has at present 15,000 miles of organized airways; the U.S., 12,000 miles; Australia, 2,500; Great Britain, 1,500; and Canada none.

Election in England Unlikely

London.—"As far as I know, there will be no general election this year," declared Sir Douglas Hogg, attorney-general, speaking at Marylebone recently. "The government has plenty of work to do," the attorney-general added, "and still has a united enormous majority."

Radio License Compulsory

Regina.—By a judgment given in the Moose Jaw Police Court, Magistrate G. N. Broatch held that it was necessary for the owner of a radio set to have a license to operate. He found one John Milligan guilty of failing to take out such a license and imposed a fine of \$10.

Saskatchewan Legislature

Notice Of Seven Bills Is Given By Ministers

Regina.—Premier Gardiner as minister of education, Hon. T. C. Davis, attorney-general, Hon. S. J. Laflamme, provincial secretary, and Hon. Dr. J. M. Uthrich, minister of public health, by giving notice of seven bills between them in the Legislature, took the preliminary steps towards setting the legislative machinery in motion.

Notice of a bill to provide scholarships for Canadian students in Paris was given by Premier Gardiner. Whether this bill will provide for an increase in the number of \$1,300 scholarships already offered under the act passed during the 1919-20 session or make provision for a new system of granting them is not known.

Attorney-General Davis will have three bills to introduce. All of them are amending bills to existing legislation, as follows: amending the Saskatchewan Evidence Act, the Crop Payments Act, and the Assignment of Back Debts Act.

Mr. Uthrich will introduce bills providing for the imposition of a tax on wild lands and respecting villages, the latter being, it is believed, a consolidation as mentioned in the speech from the Throne.

Dr. Uthrich will introduce a bill confirming an agreement between the Crown and the Anti-Tuberculosis League.

B.C. Forging Ahead

Third Province In Dominion In The Matter Of Manufacturing

Victoria.—In moving the address in reply to the speech from the Throne in the Legislature here, Wells Gray, Liberal, West Westminster, referred to the progress of the province during the past year and the improvement in various lines of industry. He declared British Columbia stood now as the third province in the Dominion in the matter of manufacturing.

Upon the fishing industry, Mr. Gray alluded to the fact that he could remember when there were scores of salmon canneries on the Fraser River. Now there were not enough sock-eyes salmon there to keep one cannery operating. This condition applied to other species of fish also. There were more fish caught by seals and sea lions than in any other way, he said.

Nothing had been done to rectify this condition in any manner and he attached blame to Ottawa.

Good Roads Convention

Annual Meeting To Be Held In Regina In September

Quebec.—The 1928 convention of the Canadian Good Roads Association will be held in Regina, it was announced by Hon. P. C. Black, Halifax, president of the association, at the final session of the 1927 conference held here. The conference will be held during September, dates yet to be decided.

The desirability of having uniform direction and danger signals throughout Canada was stressed, and ways and means of effecting a national system of signboards were outlined.

Western officials of the association who are at present attending are: A. McGillivray, Winnipeg; C. Black, commissioner of highways for Manitoba; H. S. Carpenter, Regina, deputy minister of highways for Saskatchewan; and H. P. Keith, Edmonton, chief engineer, province of Alberta.

After Many Years

President Cosgrave Hopes Debt Of 150 Years Standing

Washington.—President William T. Cosgrave of the Irish Free State executive council repaid a debt of 150 years standing.

Addressing the Senate after he had shaken hands with each of its members in an impromptu reception, the Free State executive said: "Benjamin Franklin came to my country 150 years ago and told the Irish Parliament the Irish people and the Americans alike were fighting for freedom. I have now come to repay the visit of that great man."

The visit to the Senate was the climax of the third day the Irish president has spent in Washington.

Approve Hog Pool

Toronto.—A hog pool under direction of the United Farmers' Cooperative company was approved at a meeting held here attended by delegates from practically every county in Ontario and a number from Northern Ontario.

Manitoba's Population

Manitoba's population, as at June 1st, 1926, was 689,050 or roughly 30,000 more than at the previous census in 1921. Winnipeg grew from 158,370 to 203,736 within the five-year period.

Prince Receives Farmers' Party

Remembers Acquaintances Made During His Ranching Experiences

London.—At the reception tendered them in the state room of St. James' Palace, the Canadian farmers touring the British Isles were especially struck by the readiness with which the Prince of Wales remembered acquaintances made during his ranching experiences at the "E.P." ranch at High River, Alta.

"Have you brought your lapspies with you?" the Prince asked W. Sharpe, who had reminded the Prince of having played them on the E.P. ranch. To a former resident near the E.P. ranch the Prince addressed many inquiries about affairs in Western Canada.

Those members of the party who came from the Peace River district of Alberta asked the Prince to visit them on his next trip to Canada.

"I will do my utmost to make it," he replied. "I am sorry I have not been there before."

The visitors remained at the palace about half an hour and prior to being received by the Prince, were given a reception by H. P. C. Larkin, Canadian High Commissioner in London, at Canada House.

RAILWAY PLANS EXTENSIONS IN NORTHERN AREAS

Winnipeg.—Extension of the Canadian Pacific Railway into the Northland of Saskatchewan was forecast by the president, E. W. Beatty, K.C., on his arrival here.

The work will be a continuation of the branch line which runs North from Wadena and ends at Nipawin, almost due East of Prince Albert. Connections with Prince Albert will be made by a line joining that city and Nipawin.

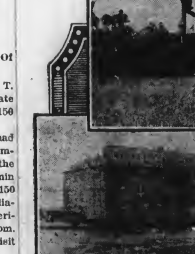

Asked if this would mean eventual extension to the Hudson's Bay, Mr. Beatty said that was a future possibility.

The mining development on the Western border of Manitoba, he said, looked a very fine prospect, however large an area; it looked as if the pre-conceived idea of an extended mining belt was going to come true. That would be a great thing for both Manitoba and Canada; the possibilities were tremendous, he said.

The Canadian Pacific Railway, Mr. Beatty said, did not plan to build into the Manitoba mine country as that district will be served by the Hudson's Bay Railway.

On the question of the Hudson's Bay route for transportation of grain to Europe, Mr. Beatty was non-committal. The railway would, however, be said, help to open up the Northern country and the development of the country would in turn help the railway. The country North of Nipawin, Mr. Beatty added, was an exceptional one by the farming country and was already partly settled.

Plans for extension in this year were included in the general constructive program, the president stated. The program would be announced shortly.

Crop Records Made and Broken

The grain crop for the past year was remarkable in many respects. Practically every province equaled or exceeded the harvest of previous years, except for the year 1923, which was the highest grain record of all time. Due to the lateness of the season combined with the large volume of the crop, new records were established by the Canadian Pacific Railway in handling, transportation and shipping. Though called upon to transport a crop of the grandest size, the company did so with greater efficiency than ever.

BRITISH DIPLOMAT

Sir Malcolm Robertson, at present British Ambassador to Argentina, who is said to be favored as the first high commissioner to Canada. He is regarded as one of the most brilliant of the younger British diplomats.

Growth Of Freedom

Bonds Uniting Empire Are Those Of Responsibility

Ottawa.—"We are witnessing a growth of responsible freedom," said Hon. L. C. M. S. Amery, British Secretary of State for the Dominions, addressing the Canadian branch of the Empire Parliamentary Association here. Speaker Lemieux presided.

Mr. Amery sketched the growth of responsible government in England indicating, in this, the centralizing effect of the crown. "There are critics," he went on, "who have felt that the complete recognition of responsibility which was accepted at the Imperial conference a year ago has left no bonds which can in fact hold the Empire together. That is quite true. There are no bonds except the sense of responsibility itself. That is the bond."

English Firm Gets Contract
Competition For Order From South Africa Was Keen

Cape Town, South Africa.—It is understood that a contract for 50 railway coaches costing £170,000 has been awarded to a Birmingham, Eng., firm, in the face of keen competition from continental companies.

The succession of important railway contracts recently given to Germany and the resultant statements from London that continuance of such a policy would be likely to react unfavorably against sales of South African products in Great Britain accentuated unusual interest in the railway administration's latest call for tenders for the supplying of railway equipment.

Uster Is Alarmed

Belfast, Northern Ireland.—The annual report of the Ulster Unionist Council says there is danger to Northern Ireland from the Republic party in the South. "At the last general election Eamon de Valera (the Republican leader) received an unexpected measure of support and as his attitude to Ulster is one of bitter hostility his own to power would place the North in a position of the utmost gravity," the report says.

Immigration Plan Has Been Criticized

Fear People May Resort Examination By Strange Doctors

London.—Canada's new system of having prospective immigrants examined by Canadian doctors on this side of the Atlantic ocean instead of in the Dominion upon their arrival there has been criticized as being likely to discourage migration of British people who may resort being examined by strange doctors at certain appointed places.

Canadian officials reply that under the old rules migrants had to undergo examination before strange doctors. It is explained, in only experimental, and if it proves successful the number of examination centres will be increased.

Dr. Alfred Cox, secretary of the British Medical Association, states that no friction has arisen between British medical men and the Canadian doctors who are examining emigrants, and he expresses confidence that no high level of criticism is intended in the new arrangement.

Fair Boards Elect Officers

P. W. Abbott, Edmonton, Is Elected President For Coming Year

Winnipeg.—P. W. Abbott, Edmonton, was elected president of the Western Canadian Association of Exhibitions (Class A fair), and H. G. Smith, Regina, vice-president, when the annual meeting of the organization was concluded here. S. W. Johns, Saskatoon, is secretary-treasurer. As president of the Western Canadian Fair Association (Class B fair), Will C. Moore, Yorkton, was elected with Dr. J. A. Munn, M.L.A., Carman, Man., first vice-president, and Lloyd Patterson, Red Deer, Alta., second vice-president, and H. Hurley, Lloydminster, Sask., secretary-treasurer.

The Class "A" fairs awarded the platform attractions to Barnes and Caruthers, Chicago, and the midway carnival rights to the Johnny J. Jones Shows, Deland, Florida. Conklin and Garrett, Vancouver, will provide the midway attractions for Class "B" fairs, and Barnes and Caruthers the platform performances.

The 1929 meeting of the association will be held in Winnipeg.

Will Not Part With Alaska

R.C. Proposals For Acquisition Of Northern Territory Not Favored At Washington

Washington.—Government officials are disinclined to take seriously the suggestion made in the British Columbia Legation negotiations opened with the United States looking to the acquisition by Canada of the so-called Alaska Panhandle. They expressed surprise at the suggestion, saying it represented no previous conversations or exchanges between the two governments on this subject and, so far as was known here, no movement in Canada of any importance.

The Canadian despatches did not say whether the method the territory was proposed to be acquired. Presumably it could be obtained only by purchase from the United States, and there is no indication here that proposals for its purchase would be favorably received.

GREAT BRITAIN WILL STAND BY PALESTINE PACT

Ottawa.—A delegation of Zionist leaders of Canada and the United States waited here upon Rt. Hon. L. C. M. S. Amery, the visiting British Secretary of State for the Dominions, urging the alleviation of what they termed "handicaps placed on the Zionist endeavour by the seeming indifference of the Palestine Government to individual productions. The province of Ontario was responsible for 21,683,000 bushels of wheat out of the Dominion's full yield of 44,323,000 bushels. There has recently been constructed at Port Jackson and Maitland, elevators with a capacity of two million bushels which greatly facilitated grain handling on the great lakes and has also doubled the Canadian Pacific Railway's storage capacity on Georgian Bay.

The British Government fully appreciated and welcomed the great part played by the Zionists in the United States and elsewhere in helping bring about the success of the great experiment which the imperial government had undertaken. The British Government had no intention of going back to its undertaking.

THE SUPPLY OF REWARD WHEAT NOW EXHAUSTED

Ottawa.—"The demand for seed of Reward wheat, a new and promising variety originated by the Dominion experimental farms, has been so keen, that hundreds of applications for seed cannot be filled this year, as the supply of seed is now entirely exhausted," said L. H. Newman, Dominion cerealist, in a statement issued here.

"Those who desire to obtain seed of this variety for sowing in the spring of 1929 should get in touch next winter with their nearest experimental farm and obtain information as to sources of supply. There probably will be upwards of 1,000 acres of Reward seeded in the spring of 1928. From 250 to 300 farmers will have from two to three acres each. The rest of the area occupied by this wheat will be located chiefly on Dominion experimental farms in the three prairie provinces.

"A report on the performance of Reward on the above farms in 1928 will be prepared next winter and probably will be available for the consideration of western wheat growers before the seeding season of 1929. This report should indicate to a considerable extent at least, the districts in which Reward may be regarded as a promising variety. It is always advisable, however, to withhold enthusiasm for any new variety until it has been thoroughly tried out by farmers for two or three years.

"Toronto.—Reward wheat is the wheat which won the sweetpeaks at the Royal Winter Fair in Toronto last fall. Some excitement was caused when it was charged that the placing of the wheat on exhibition was unauthorized. No action, however, was taken by the authorities or by the runner-up in the contest, and the award stands.

Find Fortune On Beach

Bail Of Ambergris Bings Class Diggers Eight Thousand Dollars

Astoria, Ore.—Sands of Sunset Beach proved golden sands for two clam diggers here.

When James Garner and Harry Brown, a pair of well-to-do substance weighing between four and five pounds on the beach near here had not known at first they held \$3,000 worth of ambergris.

Believing, however, the substance might be worth something, they brought it to Astoria. No one could estimate its value. Finally they sent some of it to Los Angeles. There it was recognized as ambergris worth \$40 to \$100 an ounce. Each realized \$4,000 from the find. The ambergris found by Garner and Brown is said to be the first discovered near here in 12 years.

Returning Gold To U.S.

Over \$35,000,000 Sent Across Border In Two Months

New York.—Another shipment of \$22,000,000 in gold has come from Canada to the international acceptance bank, bringing the total value of the sterling fund to \$35,000,000 since the movement began in December.

Canada imported \$29,000,000 gold from the United States from January to November, 1927, so that on the present movement the Dominion had returned \$6,700,000 more gold than obtained from the United States in 11 months.

Will Be Farm Supervisor

Toronto.—Alex. Hodge, the Beeton farmer who fought and won Daniel Fory's case with his bare hands last summer when bandits tried to rob his lone farm, will be given a position of supervisory capacity on the Government farm at Whitley, Ont. Lincoln Goldie, provincial secretary, has announced. Hodge's act was the means of uncovering an extensive rusting gang around the vicinity of Beeton.

Norway's First Labor Government

Oslø.—The first Labor Government in the history of Norway has constituted under the premiership of Christopher Hornsrud, vice-president of the Sterling, farmer and newspaper editor. Hornsrud, who will also take the finance portfolio, has chosen a cabinet of Socialists and Communists, which have been formally appointed.

Injuring Dairy Industry

Winnipeg.—The Australian trade treaty is injuring the Canadian dairy industry by marketing large quantities of butter at a winter price which makes Canadian butter uncompetitive. It was charged at a session of the Manitoba Dairy Association.

Giving on A Chance

The Mining and Industrial Record states that the announcement of Hon. W. H. Sutherland that pulverized coal will be substituted for oil in the heating of two of the largest buildings in the province, for experimental purposes, is a welcome one. It argues an attempt to benefit the coal mining industry in a rational way instead of through an impost of a tax that was beyond the rights of the province, and could benefit only the lawyers.

British Columbia and Alberta have tremendous coal resources, and, if the results of the tests on these public buildings bear out those obtained in the Old Country, their coal should go far toward driving imported oil out of the market.

It is to be hoped the railways will also make tests along these lines, for no one stands to derive more benefit than they from the re-adoption of coal as the standard fuel.

The coal mines had the fuel market to themselves. Their loss of it was largely due to their indifference to the needs of the consumer and to their insistence on marketing their product without thought as to how its service might be improved. Meanwhile their competitors, the oil producers, were constantly experimenting in the improvement of their product, which was sold graded for each requirement.

It is hard for an old champion to come back when he has been decidedly knocked out. King Coal has, however, lots of backers and his resuscitation will be of great value to Western Canada.

Municipal nominations on Monday next will take place at 11 o'clock. Citizens interested in the town's welfare should see that capable men are nominated to fill the vacancies, and not leave it to hap-hazard chance or last minute choices.

Pulverized Coal

Pulverized coal, steaming high pressure boilers, is coming largely into use as an economic source of power. At Bradford, England, Imperial Chemical Industries operate such boilers under a steam pressure of 750 lbs. and temperature of 822 deg. at the stop-valve. At Langerbrugge in Belgium, pressures of 1,500 lbs. are under test. At the Lakeside power station at Milwaukee boilers operate under a pressure of 1,300 lbs. to the sq. in. and give an efficiency of 80 per cent. Many steam power plants have recently increased their efficiency from 16 to 40 per cent.

The coal industry may take heart from the declaration of Sir Richard Redmayne, that in five years hardly a ton of fuel oil will be used in cargo boats. Sir Richard is one of the world's highest authorities on fuel and he gives figures to show that while the thermal value of fuel oil is 19,300 B.T.U. per ton at a cost of \$18.75, that of pulverized coal is 14,300 B.T.U. at a cost of \$5.75. He shows that where, as it costs Canadian Pacific boats plying on the Atlantic Ocean \$1,000 a day for fuel oil, the same power can be obtained from pulverized coal at a cost of \$250 to \$300 a day. All danger of spontaneous combustion in coal bunkers is avoided by using for the production of pulverized fuel coal which has been subjected to low temperature carbonization, such fuel, used with high pressure steam turbines, forming an ideal power for ship propulsion.

The International Combustion Co. has developed a new short-flame burner for use with pulverized coal, immensely reducing the space required for, and cost of, steam installations using this fuel.

Aboard for Banff

Crow's Nest Pass Will be Able
Represented at Winter Carnival
by Coleman Shamrocks

Leaving here on the local on Saturday morning for Banff winter carnival, the Shamrocks hockey team will carry with them the hearty good wishes of all sport enthusiasts in the Crow's Nest Pass. This is the only ladies team in Southern Alberta outside of Calgary, and that they have financed themselves to make the trip to Banff to compete against the teams of Alberta and British Columbia cities shows that they have the true sporting instinct. The goal of their ambition is the winning of the Banff carnival championship cup, and though they have strong rivals in the contending teams, yet they are fully confident in their chances to win with the best of them.

The personnel of the team is as follows: Mrs. W. S. Purvis, president; Mary McDonald, secretary; Patricia Fraser, Phemia Fraser, May Muir, Miss Haddfield, Miss Chalmers, Mae Bell, Mrs. Dot Johnson.

The first game will be against Edmonton Monarchs on Monday evening at Banff.

St. Alban's, Coleman

W. A. meets on Thursday, Feb. 2, at 7:30 p.m.

The W. A. will hold a party sale on Saturday, Feb. 4, at 2:30 p.m. in the Parish hall.

The incumbent of the parish as Rural Dean will be at Macleod and Brocket on January 31 and February 1, at Calgary February 7-9 at executive meetings, etc.

Service next Sunday at 11 a.m., Holy Communion. Sunday school at 2:30 p.m. Collection for the assessment.

—A. D. Currie, Incumbent

The Salvation Army

On Friday evening a night of prayer will be held, from 8 to 11:30 p.m., to which all praying Christian people are invited.

On Saturday, Sunday and Monday, Captain Harbord of Calgary will be at the citadel to hold special services.

Remember the sale of work to be held on Feb. 18.

Captain and Mrs. Hind returned on Friday morning from the S.A. congress at Vancouver, where a very successful gathering was held of the officers from Alberta, British Columbia and Alaska. Commissioner and Mrs. Rich and several staff officers from territorial headquarters, Winnipeg, were present to give special addresses.

Coleman Shamrocks are playing the Trail Rangers this evening.

ROLAND CRAYFORD

K. of P. Officers Installed

On Thursday evening last, January 26, Sentinel Lodge No. 25 Knights of Pythias held their installation in the Castle hall. The following officers were elected for the year 1928, the installing officer being David Gillespie, D.G.C.

Chancellor Commander	W. Wilson
Vice Chancellor	H. Standfield
Worthy	E. Hill
Master of Works	J. Denholm
K. of R. & S.	Percy Locke
Master of Finance	J. McCulloch
Master of Exchequer	Hugh Dunlop
Master of Arms	Wyndham Jones
Inner Guard	Lewis Brown
Outer Guard	J. Denholm
Trustee	E. C. Clarke

After the installation of officers the brothers invited the sisters of Progressive Temple No. 8 to a social evening, when a dainty lunch was served and the evening ended with a dance, Smith's Orchestra furnishing the music.

Coleman High School Literary Society held their literary meeting on Thursday, January 26. After the business meeting Grade XI entertained the students with a short program. A mock trial was successfully carried out by some of the Grade XI students and proved very amusing. Catherine Davidson favored the students with a piano solo, Jean Pattinson gave a humorous reading, and the Misses Mary, Pionny and Mary Baron played a piano duet.

"It made the best bread I ever tasted"

That is what Housewives in Western Canada say about **SPILLERS "BAKE-RITE" FLOUR**

A housewife in Sardinia, B.C., says:

"I baked a large batch of bread, a pan of biscuits and a cake and I found 'Bake-Rite' very satisfactory indeed."

"I have tried every brand of flour on the market and they are not to be compared with 'Bake-Rite' flour."

"It was the best bread we have had in the house since before the war. It is not waxy and gluey in the kneading. I found it did not stick to my hands like ordinary flour."

"I must say I am very pleased with 'Bake-Rite'."

Ratepayers Meeting

(Continued from Page One)

square deal, with no favors to any particular persons. He regretted there were not more present to take part in the meeting, for if citizens did not evince some interest in their own affairs and local municipal business, it was not very encouraging to those who are elected representatives of the people tried to carry out their wishes. Concerning the policy of the council towards the Crystal Rink Co., he considered it was the best policy for the town to write off the taxes, for past experience had shown that the revenue would not meet this expense, and as the town at large enjoyed the benefits of the rink, the operating of which is carried on by the personal efforts of the directors, he felt it would save money to the town by writing off the taxes. If the town had to take it over, it would cost far more to operate than under the present directorship, and the town did not want to be saddled with that responsibility. He also dealt with the change in assessment put into force in 1927, and felt it would work out satisfactorily to all concerned. In any event the town would have no choice in the matter, as during this year (1928) they would have to fall in line with the provincial laws and assess improvements.

In closing the meeting, Mr. Johnson, chairman, expressed his personal appreciation of the record of the council during the year, the proceedings closing shortly after 10 o'clock.

Finance Campaign for Young People

Various Organizations Unite in Making Appeal for Aid in Boys and Girls Work

The week of Feb. 4-11 will be the occasion of a united financial campaign on the part of the Religious Educational Council of Alberta. This council functions through the various boards, whose activities are concentrated on the training of the young people.

Tuxis, Trail Rangers, C.G.I.T., (junior and senior) are the branches represented in Coleman.

This year, these organizations will act as a unit in raising the funds required by the central board.

The executive bodies of the different groups have met and decided that an intensive effort shall be made to raise locally what may be considered a fair share for them to contribute to the central organization. Their campaign will be confined to the week of Feb. 4-11.

The local executive in Coleman asks the public to please remember that when these young people request your co-operation they are asking you to invest a small amount in "Youth." As the slogan of the campaign says, you will be asked to "Put You into Youth."

Gate's Store Sale Opens Saturday Morning

Prior to stocktaking, Gate's store has decided to greatly reduce the stock by offering goods in all lines at very greatly reduced prices. Posters have been issued giving full details of the sale which opens on Saturday morning, and the opportunities for buying seasonal goods at away below regular prices will appeal to economical buyers. Read the poster!

Personal and Local

Read the posters of the last three big days of C. Nicholas' big sale.

Read the advertisements for the Saturday Specials.

A whist drive will be held in the Catholic school this evening (Thursday) at 8 o'clock. Everybody welcome.

Saturday, February 4 the Fox picture, entitled "East Side West Side", with George O'Brien in the lead, will play at the Palace theatre.

A pantry sale and afternoon tea will be held in the parish hall on Sat. Feb. 4, at 2.30 p. m., by the Women's Auxiliary of St. Alban's church.

A social evening will be held in the Moose Hall on Monday, February 6th, at 8 p. m. Admission 25c each. Everybody welcome.

Margaret Allan was taken completely by surprise at her home by a number of her school chums, who on Tuesday evening descended on her home and made merry for two or three hours.

The next of kin of deceased soldiers have decided to hold a dance on Wednesday next, Feb. 8, in the K. of P. hall, in aid of the fund for Coleman War Memorial. Supper will be served. Admission—gent's \$1.00, ladies 50c.

There will be on view at Coleman Garage on Saturday a new model Ford car. It will create as much interest as a new arrival in the family does among the neighbors.

Triplts, the first in the history of Coleman, were born to Mr. and Mrs. Chas. McQuarrie, West Coleman, on Tuesday. One has died. The father is employed at the International mine.

The best way to reach the people of Coleman is by an advertisement weekly in The Journal. It goes in to the homes, where the advertisements are carefully read by thrifty buyers.

On Saturday, February 11 the great Wm. Fox super-special picture, "7th Heaven" with George O'Brien the lead, will be shown at the Palace theatre.

Mr J. C. Cox, of International Coal & Coke Co. Ltd. has been appointed to the Board of Examiners for coal miners certificates in West Cow's Nest Pass District, in place of Mr. D. Davidson, resigned owing to ill-health.

Miss Gladys Price entertained a number of her friends Friday evening. The evening was enjoyably spent in playing bridge, and Miss Gladys McKay won first prize, and Miss Dorothy Graham carried away the consolation.

Dick Shone is now on the road to recovery after a very critical illness caused by blood poisoning from a scratch on his hand, which started a week ago Monday. The swelling became so painful that a few days later he was removed to the hospital and it was found necessary to perform two operations to prevent the spread of the poisoning.

The Journal will be pleased to receive items of local interest. If you know any person who is not a subscriber, kindly notify the office, Phone 209. If on delivery route of the Journal carrier boys, it will be left weekly. Subscription by mail through local post office \$2.00 a year, by carrier boys 5c a copy. The boys who deliver The Journal weekly are Tom Brennan, George Vincent and Ross Foster.

Colors are the fashion in many things these days besides clothing. Typewriters now can be purchased in bright colors, from dark blue to bright red, and the latest Remington portable machines are natty little machines which to any person who has writing to do are a necessity. The Journal office can supply these handy machines on terms which enable the purchaser to handle them quite easily, from as low as \$5.00 a month. Business men, teachers, students, will find these machines a very convenient machine, as they can be carried around very easily, the total weight being eleven pounds. If interested, call and a demonstration will be gladly given.

Church School

The teaching staff is now in process of being strengthened and parents are urged to give attention to the matter of having their children in the school. A new class of boys is being formed, age ten to twelve. The former class are now the Trawlers. The junior group of older girls are now being taught by Miss Allan and would be glad to welcome new members.

Families connected with the congregation should see to it that their children attend regularly, while any child not attending any other school will be warmly welcomed.

Come to the Palace theatre for high-class pictures.

ALBERTA GOVERNMENT TELEPHONES

Tenders for Construction of New Telephone Exchange Buildings and Reconstruction of Roofs of Existing Buildings.

TENDERS addressed to the undersigned and endorsed as above will be received up to 12 o'clock noon of Wednesday, February 15th, 1928, for the erection of new Exchange Buildings at High River and Blairmore, and the reconstruction of roofs at Cowley and Innisfail.

Plans and Specifications may be had on application to the undersigned: Blairmore: Mr. J. Dow, Plant Chief, Lethbridge. Mr. J. B. Burke, Plant Chief, Calgary, and Local Manager, Blairmore.

High River: Mr. J. Dow, Plant Chief, Lethbridge. Mr. A. M. Allen, Plant Chief, Calgary, and Local Manager, High River. Cowley: Mr. J. Dow, Plant Chief, Lethbridge, and Local Agent, Cowley. Innisfail: Mr. J. B. Burke, Plant Chief, Calgary, and Local Manager, Innisfail.

A deposit of \$15.00 must accompany request for Blairmore and High River Plans and Specifications, which will be refunded upon return of same.

Tenders for the erection of New Buildings must be accompanied by an accepted cheque for the sum of 5 per cent. of the amount of the tender.

Successful Tenderers will be required to execute a Contract Bond to the amount of Twenty (20) per cent. of the accepted tender, as a guarantee for the faithful fulfillment of the Contract.

The lowest or any tender not necessarily accepted.

R. B. BAXTER, Deputy Minister of Telephones, Edmonton, Alberta.

Dated Edmonton, January 25th, 1928.

Unauthorized publication of this advertisement will not be paid for.

Weather Did Not Favor the Bonspiel

Ten Visiting Rinks from Towns East Show Up Well in Competitions

With water in a thin layer on the ice during Wednesday and to day, the local bonspiel events developed into stiff endurance contests, requiring staying power, strong arms and a hefty body to even get the rocks over the hog line, whereas for getting them in the house, it was more by chance than skill that scores were made.

But not to be outdone by mild, spring-like weather, the games in the Pontiac and the Coleman Club events were carried through, and at noon today Wilson was leading in the Pontiac event semi finals, while in the Coleman Club event Boulton was playing against Wilton to decide who should play in the finals against Allison.

McBurney made a good showing among the local rinks, playing four gruelling games on Wednesday and one this morning, when his rink was defeated in the Pontiac competition by Wilson of Blairmore.

Harry Boulton was the only local rink remaining in the competition this afternoon.

The visiting rinks are as follows: Pincher Creek—Allison, Wilton, Alexander; Bellevue—Emmerson, Lamey, Kerr; Blairmore—Wilson, Morgan, Chappell, Passmore.

Coleman rinks entered were Bell, Allan, McBurney, S. Moores and Boulton.

Remember the dance to be held next Wednesday evening in the K. of P. hall. The proceeds are for the war memorial fund, and a committee of the next of kin of deceased soldiers is arranging the details. Some years ago they held a number of very successful dances for worthy objects, and they hope to meet with a good measure of support next Wednesday.

Special feature picture at the Palace theatre on Saturday.

CLASSIFIED ADVTs.
